BIG PIGEON RACE

Thousands of Rexall Homing Pigeons in Contest September 25

One of the most spectacular sporting events ever arranged in this country will be contested on September 25, next, when thousands of Rexall Homing Pigeons, racing in pairs, will fly from points within a radius of 500 miles of St Louis back to the home lofts in that city.

In order to make possible this race, which will be officially observed by a detail of army officers sent by the Pigeon Section of the Signal Corps, the biggest pigeon lofts in the world were constructed by the United Drug Company. The best breeding homing pigeons purchasable were procured, 500 in all, and placed in the breeding lofts. From this nucleus upwards of 6,000 of the speediest, best trained thoroughbred homers have been reared. Each is trained to the hour and many are expected to set a new speed mark and smash old records.

Scores of married men who have visited the great pigeon loft in St. Louis, where more than 5,000 birds are in training for the big Rexall Derby, have had revealed to them by this feathered clan some beautiful of examples of domesticity.

SUFFRAGE HAS DRAWBACKS

Heartless Tax Collectors Will List Jewelry With Other Property

Collection of many thousand dollars additional capitation tax in the state by reason of full citizenship being extended to women, and many additional thousands will be collected from personal property that has heretofore escaped the assessors, is expected by officials here.

Women, as men, now are liable for the assessment of all personal property they may hold, and it is considered probable that this will amount to a considerable sum in the form of jewelry that doting fathers and husbands have conveniently overlooked in their assessments.

Whether a woman registers and pays her capitation tax or not she is made liable under the law for the assessment and payment of personal taxes, and it becomes the duty of tax assessors to find and assess her property. It is the opinion of tax officials that many thousands of dollars worth of diamond rings and other jewels escape tax payment.

GIVES WAITER $1,000 TIP, THEN APPEALS TO JUDGE

San Francisco, Sept. 2.—"A gift is a gift," teh law says so, and Fred. H. Warner, of Southern California, has learned this at a cost of $1,000.

Warner gave a dinner party to friends at a fashionable hotel here last November, and at the end of the dinner Warner felt so well that he called Henry Goessel, a waiter, and said:

"Here is your tip."

He handed over a $1,000 bond of a lumber company. Next day he demanded that Goessel give the bond back. The waiter refused. Warner took the matter to court on the charge of theft. The court held that inasmuch as Warner gave the bond to Goessel in the presence of numerous persons a charge of theft could not be maintained against him. A civil action was then filed. Recently Warner had this action dismissed as he found it would be useless to prosecute it.

LESLIE WILL EXECUTOR TO OPPOSE ANNULLING

New York, Sept. 2.—William Nelson Cromwell, administrator, today filed notice in the Surrogate's Court here that he would contest an attempt by Mrs. Henrietta R. Hurlbut to set aside a will of the late Mrs. Frank Leslie, which left the bulk of her valuable estate to Mrs. Carrie Chapman Catt for the cause of woman suffrage.

Mrs. Hurlbut's suit, which was begun several months ago, sought to reopen an action started by her sister, Baroness Althea Salvador, who died before the case received a hearing. The baroness claimed a prior will made her a legatee.

As administratrix of the estate of Baroness Salvador Mrs. Hurlbut seeks to have the probate of the Leslie will set aside so she may contest the bequest to Mrs. Catt, which is alleged to have been made while Mrs. Leslie was of unsound mind and unduly influenced by the suffrage leader. The petition to reopen the case was granted by Surrogate James A. Foley.

Mr. Cromwell, who is executor of the will which was probated yesterday, filed notice of his intention to appeal from the surrogate's order.

PERSHING FOR "GOOD WILL" TOUR OF SOUTH AMERICA

Washington, Sept. 2.—Consideration is being given by the State and War Departments to a suggestion that General Pershing pay a "good will" visit within a few months to South American countries, it was said today by officials of the two departments. Final decision on the matter has not been reached, it was added, and until that time the countries to be visited and the time of the trip will not be determined.

Visits to the United States have been made by a number of officials and diplomats from South American countries since the war and officials here are known to have given considerable thought to a proper return of such visits. The fact that the name of General Pershing as leader of the American forces in France became well known in South America led to the suggestion that he was extremely well fitted for the return of such courtesies. Should General Pershing be asked to make the visits, it is understood that he will do so before retiring from the army.

Robbery is the motive assigned by the police for the assault. The cash register had been robbed of the day's receipts.

From indications Hong Chong was struck down yesterday morning and lay unconscious without help until found by Sing Yen, a friend.

Fifty Per Cent Increase

Sunday School Attendance Made Big Gains During Y. M. C. A., Contest

Sunday School attendance increased approximately fifty per cent in Alexandria during the past three months as a result of the attendance campaign inaugurated by the Y. M. C. A., and conducted in all of the schools of the city this summer.

The bases for figuring the percentages of the schools were secured from the attendance records during the first four months of the present year, and the object was to prevent a so-called summer slump. But Secretary Wallace, after satisfying himself that the winter attendance was far exceeded in the contest, was anxious to know just how the attendance this summer compared with that of last summer.

Seven schools responded and these included the largest and most progressive in the city, and they reported a total attendance for the three months of last summer of 953 per Sunday. These seven schools this summer totaled an attendance per Sunday of 1439, or an increase of practically fifty per cent. And it is pointed out that last summer Alexandria was enojying a much inflated population, while this summer it is much more normal.

The first Baptist School enjoyed the largest increase, 169 per Sunday But the First Baptist is the largest Sunday School in the city and its percentage of increase is not as large as that of the winning school, the Second Baptist, which shows an increase of 109 per Sunday.

St. Paul's school just he'd its own, having an attendance of 122 per Sunday both last summer and this. The Methodist increased 59, while the M. E. Church grew 104 per Sunday, Grace Church figures show that her attendance is better by 32 per Sunday while the Second Presbyterian school increased 28 per Sunday.

Plans are being completed to husband the enthusiasm engendered during the campaign and it is the intention of the Y. M. C. A., to make Alexandria the greatest Sunday School city in the state. Many cities have been watching the contest and it is said will copy the idea next summer.

COAL INDUSTRY BADLY CRIPPLED

Workers In District No. 1 Reject Award and Vote "Vacation"

SCALE BODY ACCEPTS

Operators Not Willing to Sign if the Miners Repudiate Pledge—Federal Agent Probing.

Wilkes-Barre, Pa., Sept. 2.—The anthracite coal industry will be tied up in the morning as a result of the vote for "vacation" taken at the meeting of 300 delegates from 65 locals of the United Mine Workers of District No. 1 yesterday afternoon. Between 60,000 and 80,000 men of the three districts, assuming that the meeting would take strike action, were not at work today, and there is little doubt that the number of idle men will be nearly doubled tomorrow. There are 185,000 workers in the field and insurgent leaders of this district, who are leading the "vacationers," are greatly surprised because a large number of idle men today are from the Pottsville, Shamokin and Hazelton districts. They expected to tie up Luzerne county first and the other sections later, and were encouraged by the success of the pre meeting missionaries.

Fifteen Department of Justice agents are continuing an investigation that began two months ago, when the Pennsylvania strike began. The demands of insurgent followers are based along the lines laid down by Neal Jeffrey, minority member of the Anthracite Coal Commission.

Enoch Williams, of Scranton, insurgent leader in District No. 1, presided at the "vacation" session. He stated that the resolution adopted by the miners Saturday night, promising strike if the President failed to act favorably on the insurgents demand for his approval of the minority report, continued to stand until a motion of reconsideration should be adopted. A two-hour period of discussion started at this point, during which only one man, George Evans, of Olyphant, declared against the "vacation" move.

He presented a proposal which would send a delegation to the joint scale committee of miners and operators to ask for a further increase through proper channels and expressed a belief that the difficulty will be experienced in winning a strike because the President was defied and the methods adopted to obtain an increase unlawful. Mr. Evans was given a warm reception and no others attempted to speak along the same lines.

Other delegates then took the floor and each stated that his respective local had on the previous evening taken a strike vote and had given instructions to the delegates to so vote. The only variation from this line of talk was when several speakers took occasion to bitterly attack the officers of district Number 1 for alleged failure to properly lead the members.

With the scale committee sitting at Hazelton to adopt a new set of demands, the insurgent body already on strike, the joint scale committee of miners and operators sitting tomorrow to write the new award into an agreement, the agreement to accept a commission being broken and many miners not members of any organization and therefore not feeling themselves bound, a trying situation has arisen in the coal fields, and old miners are praying for a resurrection of a new John Mitchell to lead them from the mire of disorder.

The delegates say they will report to their locals that all miners are expected to remain idle until the companies acceded to their demands.

Hazelton, Pa., Sept. 2.—The scale committee of the United Mine Workers of America, representing the three hard coal districts, late today agreed to accept the award of the Anthracite Coal Commission, under protest and follow this up with the

Senator Reed, Democratic Member Hits At Donors To Barnes' Book

MANY CONTRIBUTE

Democratic Treasurer Marsh Says Will Hays Commended the Year Book

Chicago, Sept. 2.—Senator Reed, Democratic member of the Senate committee hearing tonight that every campaign expenses, stated at the committee caring here tonight that every person who contributed to William Barnes' Republican Year Book, is guilty of a violation of the corrupt practices laws. He reads sections of the law and said.

"I will undertake to make an indictment on that stick anywhere."

The names of contributors were signed to the following pledge and photographic copies of the list introduced as evidence::

"We, the undersigned, appreciate the necessity of restoring to power the Republican party and approve the widespread distribution of militant Republican propaganda under the direction of William Barnes. To that end we hereby pledge our moral and financial support."

Here are some of the names that appear on the photographic copies of the lists: John D. Rockefeller, John D. Rockefeller jr., Clarence H. Mackay, Guarantee Trust Company of New York, the American Tobacco Company, Otis Elevator Company, William Wrigley Company, Ogden L. Mills, Colonel Jacob Ruppert, Julius Fleischmann, Henry and Jefferson Seligman.

Reference to the year book was again brought up before the committee when W. W. Marsh, treasurer of the Democratic National Committee, charged that the contributions were made for the purpose of spreading Republican propaganda under the direction of William Barnes, but through other sources as well as under the direction of Barnes.

He also charged that Will Hays, chairman of the Republican Executive Committee, had commended the year book. He held that this work, which he said was to "have been carried on by Barnes," was for the purpose of aiding the Republican campaign and that it took some of the expense off the national committee.

TENNESSEE'S LEGISLATURE'S FUTILE ACTION

No matter what one may think of the wisdom of the Nineteenth Amendment to the Constitution of United States, there is no reasonable doubt that it is now part of the supreme law of the land. Three-fourths of the States have ratified the amendment, as shown by official documents deposited in the State Department at Washington, and the Secretary of State has issued his proclamation declaring it part of the Constitution. There is no going behind these returns, and all efforts of the antis are worse than futile.

It has become established that while a State which has refused ratification may thereafter ratify an amendment, no Legislature which has once voted affirmatively can recall such a decision. This has been tried, but in vain. On the other hand, we have the curious situation that there is no limit as to the time in which Legislatures may act affirmatively. Almost immediately after the present government was organized a considerable number of amendments were proposed by Congress, but only ten—comprising the so-called Bill of Rights—were adopted. It would be possible now to adopt the rest if the Legislatures were so disposed.

In our history a number of amendments have been proposed which failed of adoption, sometimes by negative action and at others by inaction. Recently the Supreme Court in several appeals dealing with the Eighteenth Amendment handed down a decision which is supposed to settle every contention which now may be brought before that tribunal and it is presumed that on its meeting in October the matter will be raised and promptly disposed of.

It was held by the Supreme Court that the Constitutional provisions for acting on amendments are absolute and that no State Constitutional regulations can interfere in any respect. The case in point was where a State Constitution provided that there should be a popular referendum on Federal amendments and this was knocked out completely in a decision of such sweeping character that it is, humanly speaking, impossible for the Tennessee imbroglio to receive a serious consideration. For good or ill women will vote on equal terms with men until there is a change in our Constitution.

George Harvey says he is just sick of this talk about a Senate clique nominating Harding at Chicago. Naturally he is. Doesn't everybody know by this time that no less an authority than George himself admits that it was he who nominated Harding while trying to nominate Will Hays?

Wise men change their minds, but the manner in which Mr. Harding flops on the League proves that somebody's been trying to put him wise to his error and that neither his adviser or Mr. Harding has the wisdom to get an alarmed candidate out of a deep hole.

Arthur Walker, Hawaiian bachelor, who has inherited $50,000, is said to care little for society. Wasn't it Irvin Cobb who said that any bachelor can get into society, and only an athlete can keep out? And he wasn't speaking of multi-millionaires.

Henry Ford's decision to open a technical institute for his employes will be hailed with delight as a possible step toward scientific diagnosis of engine trouble and away from empirical treatment of the carbureter.

Maybe it was after the candidate's flop to autocracy had been communicated to him in advance that Al Johnson sang upon the Front Porch: "We need another Lincoln to do the country's thinkin'."

Well, maybe Mr. Hays didn't remember that $700,000 Mr. Hays is full of large affairs. A mere detail in a campaign fund balance sheet might escape his eye or his memory.

Cantaloupes, apples, snap beans, cabbage, watermelons, roa'n ears, are down. Movies are up. The Emerson-ian theory of compensation has an illustration.

Ponzi was a man who could make more friends in a day than any man in Boston, and break more friends in a day.

The orginial Bolshevik was Carrie Nation. Her invasions were more successful than the effort in Poland.

Oh, here's a wondrous story: There dwells in many a house an able bodied voter who dares not face a mouse.

A Democratic slogan: Cox the invincible. A Republican slogan: Rocks are invincible.

TO ONE IN FRANCE

(Florence Van Cleve in the New York Times).

(To the 400 Americans who fell at Landres et St. Georges)

Once, in your childhood, eagerly I tried
To compass your desire
For sword, and shield, and wooden horse to ride,
And then, as your horizon grew more wide,
Told you old tales that set young blood on fire,
Of Arthur and his knights—the Table Round—
The chivalry that made the world resound;
I taught you to aspire
To equal those great knights, if ever Time
Should bring a Cause that would make death sublime.
And then—it came!
The world was wrapped in flame!
And you and I looked in each other's eyes
And knew your chance had come. I let you go—
My boy, whom I had loved and cherished so;
My boy, who nevermore would be the same,
Even if he returned.
What gave me strength
To bear that parting, and the dreary length
Of days that passed slow-footed, leaden-eyed?
Ah, you and I were nourished on the hope
That War itself would die in this Great War!
For this ideal you fought—for this I prayed,
That the torn, bleeding earth be freed, and made
Safe for Democracy!
And is it so?
Son of mine thank God you did not know
The craven Fear that is our stealthy foe!
That you are safe within a hero's grave,
And know not, dream not, how, our Vision fled,
(We keep not faith with our illustrious dead—
How we, forgetting our pledged word,
As shamefaced day by day, reluctant dawns,
Deny, like Peter, what we swore to save,
While peace is mocked, and wears a crown of thorns!

PSEUDO VETS SWINDLE PUBLIC

Peddle Book And Collect Money Which Wounded Never Get

Washington, Sept. 2.—Public sympathy for the men who were wounded in the war has opened up a new field for swindlers of the public and the suffering of the ounded for their own gain, said a statement from the War Department today.

"Clad in the uniform of the army these harpies pretend to be exservice men, although those who have been arrested so far have generally refused to show their discharges, and claim that they are peddling for the benefit of the wounded soldiers. The usual method adopted for defrauding the public is to offer a booklet for sale in the cafes, or street corners and on the street cars, and the average person accosted does not hesitate to buy one when told that the money is to go to the wounded. None of the money obtained from the sale of these booklets has ever been received at any of our military hospitals where the wounded are being cared for.

IN MEMORIAM

SUTHARD—In sad but loving remembrance of our dear daughter and granddaughter, Virginia, who departed this life six years ago today, September 2, 1914.

Six years have passed our hearts still sore,
As time goes on we miss you more
Your loving smiles and tender face,
No one can fill your vacant place.
Sweet is the memory which shall never fade.
Heart of my life is buried deep,
Under the sod where my dear daughter sleeps.
Leaf by leaf the roses fall,
Soul by soul the Savior calls,
Not for one, but for all,
We must go when the roll is called
By her devoted father

BALTIMORE NEWS BY AIR

Baltimore, Sept. 2.—The Evening Sun, evening edition of The Baltimore Sun, has purchased an airplane for regular use by its reporters and photographers in covering "rush" stories developing at distant points.

As pilot the newspaper has engaged Lieutenant William D. Tipton, former flight commander of the 17th Squadron of the American air forces who shot down four enemy planes and a balloon in France.

TWO BURNED TO DEATH WHEN MAIL PLANE DROPS

Pilot and Mechanic Perish in All-Metal Government Machine at Morristown, N. J.

Morristown, N. J., Sept. 2.—Max Miller, pilot, and Gustave Rierson, mechanism of Troy, Ohio, were burned to death when a Government all-metal mail airplane crashed into the street here early today. The plane was bound from New York to Cleveland, and was flying low with the engine backfiring badly just before the accident.

An explosion which threw mail bags hundreds of feet in all directions followed the fall of the machine. The aviators were pinned under the wreckage.

Later word from Postoffice authorities explained that there was no registered mail in Miller's plane.

Postoffice officials said Miller was regarded as one of the most efficient pilots in the service. He had a similar accident in which his plane took fire some time ago, they said, but extinguished the flames while still in the air. The accident at Morristown was the fourth case of a mail plane taking fire, it was added, in 950,000 miles of flying.

GREENWICH VILLAGE CURFEW

Jazz Must Cease Hour Before Midnight, Declares Judge

New York, Sept. 2.—Quaint Greenwich Village, New York's bohemian quarter, famous in song and story as the home of new thought, has something new to occupy its attention—a jazz curfew at 11 p. m., nightly.

This ultra modern idea was not of the Village's own initiative. It was decreed by a matter of fact magistrate in Jefferson Market court, who ordered the clanking cow bells and the moaning saxophone to cease their jangle in a tea room an hour before midnight, in orden that complaining nearby tenants might sleep.

EXPECT RELEASE OF CORK MAYOR

Visit of Government Physician to Prison Starts Rumor

London, Sept. 2.—The fact that the home office physician visited Terence MacSwiney, Lord Mayor of Cork, in Brixton Prison this afternoon, is responsible for a rumor that the Government intends to release the hunger striking Mayor. Lord Riddelll, the confidential adviser of Premier Lloyd George, arrived in London several days ago and immediately began to study the situation. It is understood that he has made his report to the Premier.

As the decision to allow Lord Mayor MacSwiney to starve himself was reached by the Cabinet as a whole, it is necessary to explain an unanimous agreement must be reached if any change in policy is to be introduced. There would be no surprise if the Government now reverses itself. The weight of public opinion is against permitting the Sinn Feiner to die.

The condition of MacSwiney tonight was without change, except that he appeared a trifle weaker. His relatives seem less anxious than they were a few days ago, Mrs. MacSwiney not paying her customary visit last night.

MAY GET CONNECTICUT

Legislature Called For Sept. 14, Six Days Prior to that of Maryland

Hartford, Conn., Sept. 2.—Governor Holcomb, of Connecticut, called today a special session of the Legislature for September 14, his action paved the way for Connecticut to become the thirty-seventh State to ratify the Susan B. Anthony amendment and make doubly sure the right of women to vote throughout the nation this year.

The Connecticut Legislature thus will meet six days before Maryland's General Assembly which press dispatches say, Governor Ritchie has promised to call into extra session on September 20. There is a strong possibility, therefore, that the honor of being the thirty-seventh to ratify will go to the Nutmeg State.

Governor Holcomb persistently refused to call a special session when the thirty-sixth State necessary for making suffrage a law of the land was lacking, because, he declared, he couldn't call the Legislature unless called the Legislature because of the emergency existing in lack of State "emergency" existed. Now he has called laws to provide the election machinery that women may vote.

REQUESTED TO INTERCEDE IN MACSWINEY'S BEHALF

Washington, Sept. 2.—Frank P. Walsh, chairman of the American Commission for Irish Independence, after a conference today with Secretary Colby, announced that Mr. Colby had promised "to endeavor to do something and do it quickly," in behalf of Terence MacSwiney, Lord Mayor of Cork, now on a hunger strike in Brixton jail, London.

Mr. Walsh said he asked the State Department Secretary to intervene either officially or personally with Premier Lloyd George to save MacSwiney, who, he said, would die within 12 hours. He made a similar request of President Wilson in a letter left at the White House.

Secretary Colby, after Mr. Walsh's visit in response to questions, said he had the plea which had been presented him under consideration.

Mr. Wals said he cited to Secretary Colby as precedents for American intervention in behalf of the Cork Mayor the representations made by the United States in 1906 to the Russian Government against the Jewish pogroms.

YOUR SYSTEM NEEDS PAW-PAW
You don't have to be "flat on your back" or so weak that you can hardly move, before taking a tonic. That's almost too late, yet Munyon's Paw-Paw Tonic will help you even then. The best time to take it, however, is when you feel yourself going, when the digestion goes wrong, or stomach or liver troubles, food distress, belching, dizziness, biliousness, or sick headache appear.
Munyon's Paw-Paw Tonic is particularly valuable to the nervous, weak or debilitated or those who have been using drugs or other stimulants to keep them "keyed up." Munyon's Paw-Paw Tonic makes recourse to these dangerous and destroying agents unnecessary as it supplies the weakened system with just the proper stimulus needed to restore lost vitality.
Every person who feels overworked, weak, run down, generally out of sorts, should try Paw-Paw Tonic at once. Ask for it by name and be sure that it is Munyon's Paw-Paw Tonic prepared only by the Munyon Homoeopathic Home Remedy Company, Philadelphia and Scranton, Pa.

Cooperation Between Employer and Employees Is Necessary If Both Would Be Truly Successful!

Now is the time for the forward look, for the commencement of a movement that will work out for a closer relationship between the man who has work to offer and the man who wishes the work. The closer that this relationship is between them and the more that each endeavors to co-operate with the other, placing his dependence upon the success of both. Employers and workers are engaged in common cause. Each should have the ambition of reaching the highest pinnacle of success and should appreciate their dependence upon the other. The closer they work together, that much easier will they reach the goal toward which they are striving.

The Man Who Offers Employment and Those Who Accept Same Have A Responsibility Towards Each Other and Which They Must Assume

It's Team Work That Counts

Business could not exist without labor. Labor could not exist without business. One is dependant upon the other. The interests of all depend that business and labor should co-operate in order to be successful.

When employment is offered, persons accepting same have a right to consider that certain considerations are their due. The employer, actually and tentatively agrees to certain things and which must be carried out. A successful business man, in any line, will not tender employment unless he knows that the conditions offered will be met. The responsibilities of the employer are great and unless he recognizes them and endeavors to fulfill them in every detail, it is impossible for him to be successful from the fact that he cannot hire or retain help as soon as it is known that he is irresponsible and indifferent to the just claims his employees may have upon him.

Give Consideration to Matter

The sincere man who will consider the points brought out in this announcement can not help but admit the need of co-operation that exists today between all classes and the beneficial results when it is recognized.

The Claims of the Employees Are Not Any Greater Than That of the Man Who Furnishes Employment. It Is As Binding and Should Be Recognized As Such By Every Wage Earner

A great deal of the misunderstandings that arise between employers and workers is due to the failure of each to recognize the rights of the other. While a portion of the difficulties that come up can be traced to unfairness of the employers, there can be no question but what a great deal of the trouble is traceable directly to employees acting unfairly towards those by whom they are employed. Perhaps not in the strict sense of right and wrong. But more particularly as to their failure in co-operating and in working for the interest of those by whom they are employed. Men who work for a wage are responsible to a great extent for the success and growth of the business. They should realize that carelessness, lack of interest, indifference as to quality and quantity of the work performed lessens the profits of the business, increases the cost of operation and prevents its expansion. All of which directly works against the interests of the men who are employed and thus creates conditions that tend to promote unrest and dissatisfaction against the employer who is in no way responsible. If men will take an interest in their work, endeavor to make a quality production, in as large a measure as possible, they will usually find that they will receive a wage satisfactory and under working conditions that will also be all that they can desire. The restlessness of men in these days, due to reports of big wages in other places is responsible for a spirit of unrest. They hear of how much money can be made in other places but which if traced down would prove to be a myth or that working conditions are so poor and requirements are so great that the hardships in connection with the work in other places more than counteracts the larger wage. The man who has a good job, is steady, reliable and has the interest of his employers at heart, will not need to complain. His work will be appreciated, he will be advanced and his wage will always be in a just proportion to that service which he renders his employer. Co-operation is essential on the part of both. The more that it is known and recognized, the greater will be the success of those who are employing men as well as will the success be greater of those who are employed.

It is perfectly right and just for every man to wish to make his labors produce for him as large a wage as possible. A man will never get along who becomes discontented and starts running about, working only a few days on a job and then leaving for some other place where he imagines he is going to better himself. It is the man who sticks to his job, and who works at all time to make his work productive, who succeeds. Whether you are employer or employee, consider carefully this relationship that must exist between men if they would be successful.

Don't Quit Your Job!

Don't let outside influences cause you to quit your job. If there is dissatisfaction regarding working conditions, your wage scale or for many other cause, see your employer, talk it over with him. You'll find him ready to help you in every way. He is interested in you and will gladly do all he justly can to promote your comfort and interests in every way and to make you contented.

HAS $100,000,000 READY TO PAY U. S.

Paris, Sept. 2.—The willingness of American bankers to consent to a reduction in interest and in the underwriting commissions originally demanded in the negotiations in connection with the repayment of the Anglo French loan hae created a very favorable impression here.

The French government has $100,000,000 in gold ready to ship to the United States as soon as M. Parmentier, representative of French ministry of finance, who is now in New York, gives the signal, and officials here are confident that the new loan on terms eminently satisfactory to both the French government and to American financiers, will be announced in a few days.

The original demands of the bankers included a 10 per cent interest provision besides an underwriting percentage, but it is understood here that M. Parmentier has effected a tentative reduction in the interest charges to something like 7 per cent with a substantial cut in other demands, and even in the maturity terms.

FOUR NEW ARRESTS IN COUGHLIN CASE

Philadelphia, Sept. 2.—Four men besides Pasquale, who is in jail at Norristown, and James Shields, who has been convicted and sentenced in the Greencastle Court for attempting to extort money from George Coughlin, of Norristown, in connection with the kidnapping of the Coughlin baby, are under arrest, all charged with attempts to extort money from Coughlin by writing "crank" letters to him.

That was made known yesterday by Chief Postal Inspector Leonard, who said that State Police have been busy for some time investigating letters received by the parents ever since the first "Crank" letters were given publicity, and as a result four arrests besides that of Pasquale, believed to be the real "Crank" have been made. Pasquale is now in the Montgomery county jail at Norristown, accused of having swindled Coughlin out of $12.50 ransom paid by the anxious parent in the vain hope that the baby would be returned.

READING PREPARES FOR $15 A TON COAL

BEST SIRLOIN STEAK IS 22c A POUND IN FAR AUSTRALIA

A seven course dinner which costs $6 in New York or Washington costs $1 in Sidney, Australia, according to William Amberson, of that city, now here.

"The best sirloin steaks costs only 22 cents per pound in Australia," says Amberson. "The basic wage in Australia is about $40 a week, and people can really live well."

REPENTANT THIEF GIVES BACK PURSE STOLEN LONG AGO

Frederick, Md., Sept. 2.—From a conscience-stricken thief this week Mrs. Oliver McClow received a handbag stolen from her nearly eleven years ago.

Mrs. McClow was shopping in a Frederick store when the bag was snatched from her hand. It contained a ten-dollar bill, an annual railroad pass, some small change, and a number of receipts.

One night this week, during a hard shower, a strange woman walked onto the porch of the McClow home and handed Mrs. McClow a package. It contained the original railroad pass and the receipts and money to replace the original bill and coins.

SOCIETY GIRLS FILMED IN SWIMMING HOLE

Greensburg, Pa., Sept. 2.—Quite a number of society people of Greensburg are wondering just when they will appear on the screen in their bathing suits, many of them said to be one-piece arrangements, in which they cavot around in the waters of Buttermilk Falls, the most famous "swimming hole" in the Ligonier Valley.

Last Sunday a troop of film artists arrived at Buttermilk Falls to do some acting. A comedy was put on in which the girls of the troop did some high diving from great rocks to rescue the comedian who was struggling in the water. The Greensburg campers found the work of the artists quite interesting and were inclined to crowd around as close as possible, when suddenly some one discovered that the operator was taking the whole bunch in. Needless to say there was a hasty scatterment.

CANNOT SELL WOODEN SHIPS

Shipping Board, Second Time, Fails to Get Bids for 24 Vessels

The shipping board failed yesterday for the second time to find any bidder for ships of its wooden merchant fleet. A group of 24 of the wooden war built crafts, aggregating 100,000 dead weight tons, were advertised recently, bids to be opened yesterday. There were no bids to be opened when the hour arrived. The same followed advertisement of 22 ships some time ago. The policy of the board has not been disclosed, but it is thought a minimum price for the ships may be fixed to encourage offers.

Bids for steel steamers, aggregating 32,720 dead weight tons, were called for yesterday, to be opened on September 7. Terms of sale call for 10 per cent cash on delivery and the balance in semiannual installments over three years, a check for 2 1-2 per cent of the offer to accompany each bid.

"The Courage Of Marge O'Doone"

By James Oliver Curwood

The Call of the North!

And a clarion call it is that this splendid, vigorous story of the frozen Northland sends out from the screen after being picturized and made into a superb, big special photodrama production.

The magic of the motion picture turns the warm and glowing pages of a masterly story into a pulsing, living drama, whose sheer charm and realism carries one away to that vast white country "up there", with all its grim glory and grandeur.

It breathes the breath of life into the staunch and sturdy men and the courageous and beautiful women of this story. And in the deep rich colors and splendid hues, that the printed word could never find, it has painted a background for the romance and tragedy—the villainy and valor, the stirring mystery and the startling surprise.

That is the call of the North—and everybody answers it!

IDLE HOUR THEATRE

One of the greatest of James Oliver Curwood's famous stories of the Canadian Northwest will be shown at the Idle Hour Theatre Saturday. It is different from anything previously produced and a picture of real merit. It is entitled "The Courage of Marge O'Doone" and is presented by a cast of all star players, headed by Pauline Starke and Niles We.ch. Animals play an important part in this production. Baree, an outlaw dog, wild and ferocious, and Tara, a grizzly bear, are important characters. The atmosphere of the country north of 53 is faithfully reproduced in this production, which was directed by David Smith. The scenic backgrounds are of a kind that makes the production a travelogue as well as one of the most intensely dramatic human interest stories ever screened. It is also an educational film, giving many interesting and unusual animal scenes. A bear fight, the mortal combat between two men, thrilling escapes and a genuine love interest are some of the high lights on the production.

RICHMOND THEATRE

Beautiful Dorothy Dalton is the star in "The Dark Mirror," the feature picture at the Richmond today.

In many ways it's the most unusual picture ever shown. Certainly its' one of the most entertaining of the season. Miss Dalton plays the role of a society heiress who became a belle of the New York underworld.

Thomas H. Ince produced the picture and it's a Paramount Artcraft.

A Snub Pollard comedy will also be shown.

SPORTS

CHEAPER FOOD
SEEN FOR 1920

Crop indications for 1920 are so favorable that in spite of increased railroad rates and other factors tending to increase costs, a decided drop in the price of all staple foodstuffs should take place this autumn.

This statement was made yesterday by crop experts at the Department of Agriculture. Wheat, they state, will be but little short of the record crop raised last year, and the corn crop promises to be a record-breaker.

According to latest figures available, the corn will total 3,003,322,000 bushels, wheat 794,147,000 bushels, oats 1,402,064,000 bushels, barley 195,916,000 bushels, potatoes 500,800,000 bushels and of tobacco 1,544,489,000 pounds.

This splendid record, department officials assert, is due in large part to an unusually favorable season and abundant rainfall. In view of the prevailing shortage of labor the showing is stated to be especially gratifying, but warning is given that unless the farmer's burdens are lightened and he is given a fair share of profits, a heavy slump must be expected in next year's crop.

BOY IS KILLED
IN B. R. T. RIOT

New York, Sept. 2.—The temper of the strikers of the Brooklyn Rapid Transit system grew somewhat ugly today as the service on the subways, elevated and trolley lines improved. There were frequent riots between strikers and strike-breakers, and a boy was killed in the course of an affray. The police were compelled to use their clubs on several occassions and some arrests were made.

An early break in the strike is expected. The situation took a hopeful aspect last night, following a compromise offer of the strikers after their rejection of Judge Mayer's demands that they return to work pending arbitration.

The men are willing to withdraw their demands now before the transit company, accept a 10 per cent flat wage increase and submit all other questions to unlimited arbitration.
